

**Connect young leaders - Grow capacity -  
Serve those who lead**

## Our Vision

To make disciples for Jesus Christ in every country of Europe in and through sport and fitness.

## Our Mission

We partner together to serve God's Kingdom in and through sport and fitness in Europe as part of a global movement in sport.

SRS International, under the umbrella of ECSU, provides different opportunities for youth and upcoming leaders from across Europe to grow and reach their potential.

## Leadership Training

Online learning and in person training is made available for a variety of contexts including sport leadership, cross cultural competence, community transformation, management and organisational development.

## Mentoring

To ensure strategic and sustainable leadership, intentional mentoring is essential. The two main approaches are peer to peer mentoring in learning cohorts and communities of practices, as well as, matching young and upcoming leaders with mentors that are more experienced in their respected areas of work.

# Leader Development Fund

Over the past 15 years, young leaders from over 15 countries have benefited from a monthly stipend increasing their capacity as leaders to lead in their context of sports and beyond. The financial support comes together with a personalized leader development plan, intentional mentoring and other support services.

## Testimonies

**Vasko** "As a professional and someone working with high level players, I need someone who understands the situations that happen and can give me helpful advice and not just a pat on my back. SRS International, comes alongside to help me go through challenges a coach's life brings."

## 2025 Activities and Programs
